

# STOCKS ACTIVE; PRICES HIGHER

Specialties Advance By One to Two Points; Sugars and Shipping Issues Higher.

NOTE—Quotations reflect closing prices Thursday, July 6.

New York, July 6.—Stocks made further progress at today's trading, owing to the more favorable domestic and international conditions. Rains were the chief feature. Reading was advancing over two points on firm accumulation, with a fair inquiry for Canadian Pacific, Union Pacific, Lehigh Valley, New Haven and Rock Island.

Among the specialties, Mexican Petroleum, Canadian National, Industrial Alcohol and Weyerhaeuser were better by one to two points. Sugars and shipping issues also recorded increases. Union Pacific, Canadian National, Lehigh Valley and Rock Island were firm at a fraction over their recent best.

Reading continued to lead the springing of the market with an advance of 2 1/2 points. Canadian Pacific and Weyerhaeuser were stronger. Sugar made further upward progress with new high records for American and Cuban cane. Mexican oil yielded fractions of their early gains, and most of the other specialties were inactive and some shares reflected further fluctuations. Bonds were steady.
